

Loyal

Being loyal always

The Loyal group of companies was established in 2008 with a vision of creating a legacy and to be paramount in the industry catering the power essentials throughout the Emirates. Our Promoters and key management professionals are having more than 25 years of vivid experience in the energy, utilities and contracting industries in UAE.

Loyal provides contractual services and products for the operation of energy, utilities, developers and contracting companies ranging from substations and electrification including network operations, directional drilling and civil contracting.

We have a group of passionate engineering professionals with comprehensive domain knowledge, engineering experience and continuous improvements, which enables us to provide, optimized turnkey solutions to our clients with loyalty. Our project management team ensures completion of project as per "specification", "within the time" and "budget" through "customer support".

Our team of 150+ employees are differentiated by imagination, knowledge and experience across energy, utility and contracting industries that we bring to every project we undertake.

At Loyal, we believe our responsibilities extend beyond business; equally positioning Corporate Social Responsibilities and therefore we behave ethically, honestly and loyal with our clients, partners and employees.

SUBSTATION SERVICE

More than 9 years of experience in substation domain with our presence in FEWA, SEWA and other utilities, loyal can deliver all kind of turnkey EPC substation distribution grid which includes shutdown jobs, extensions, upgrades retrofitting's, erection of capacitor banks and automation. Our engineering team has comprehensive experience in substation equipment installation and commissioning projects complying with health and safety standards through planning, co-ordination, management, supervision, and inspection and training programs for substation operators.

NETWORK MANAGEMENT

Network management team specialized in power system protection, network installation / modification, testing and commissioning, detection and repairing of cable faults, ensuring downtime is minimized if a repair action is required in underground cable system with 24/7 availability. Our team provide 24/7 surveillance assistance to desired consumers for maintaining their substation at a very cost effective solution as after sales service through AMC agreements. Such services are offered to customers from Sharjah and Northern Emirates at presently.

MEASUREMENT & ANALYSIS

Our experts provide continuous support directly to electrical utilities, manufacturers and contractors from planning to commissioning (complete life cycle services) which include flow, temperature, pressure level, tension measurement, valve automation, liquid and gas analyzers which supports life cycle assessment and management, operational efficiency and performance improvement.

SUBSTATION AUTOMATION SYSTEM (SCADA)

Armed with the technological expertise and process driven approach, we can take up any challenging project. As an experienced total solutions provider, we deliver all sizes, complexities and scopes of customized turnkey projects, including SCADA development, fiber optic cable network, system planning designing, engineering, implementation, commissioning and support services.

We have a dedicated team focused on the SCADA/ automation solutions, which includes supply and installation of remote terminal unit (RTU), system integrated cabinet (SIC), telecommunication and battery chargers.

With a strong workforce and professionals, supported with technology and an inspiring work environment, Loyal creates a win-win situation for our customer and end-users. The company's capabilities span the entire breadth of construction, civil, structural, mechanical, and electrical and firefighting engineering etc. for all major industries and project types including substation buildings. Having strong commitment towards the safety of the people we strive to provide our clients with a comprehensive quality service that matches all their needs. Our scope includes:

- Carpentry
- Interior Designing
- Construction
 - Office Buildings
 - Hospitals
 - Plant Buildings and 11kV, 33kV Substation Buildings
 - Building structures
 - Site works
 - Making Pavements & Parking lot interlocking
- MEP related activity
- Concrete rehabilitations and repairs
- Tiling
- Lighting
- Painting and finishing
- Steel Structure
- Pipe Racks
- Platforms and stairways

Loyal serves to develop the infrastructure in the United Arab Emirates with advanced technological and professional skills without unnerving the present substructure. Our approach includes Non-Disruptive Road Crossing (NDRC) by Directional Drilling method and ducting. We use advanced methodology for tracking and tracing, Bathymetric survey and Profiling for the survey activities. The division is equipped with Vermeer, U.S.A. directional drilling machines which are deemed to be most reliable with highly experienced technical staff. We undertake single or multi duct crossings on high ways, asphalt parking lots, canals and creeks/sea bed. Our team is acclaimed of carrying out critical crossings which is declined by other service providers.

Highlights of Our Completed Milestone Projects:

- **TILAL CITY** - *Client:* Tilal Properties
EPC Turn-Key Project involving Design, Engineering, Supply, Installation, Testing and Commissioning of
 - » 3 nos of 33/11kV SEWA substations
 - » 40 nos of 11kV SEWA substations
 - » Cable Networking of 30km
- **KINGFISHER LAGOON** - *Client:* Shurooq , SEWA
 - » Sea Crossing of 1 km
 - » Supply, laying, testing and commissioning of 11kV Cables
 - » Design and, Supply, Testing and installation of 11kV SEWA Substations
- **JUBAIL-3 TO FLAG ISLAND** - *Client:* Directorate of Public Works, Sharjah
 - » Bathymetric Survey and Profiling
 - » Design, Engineering, Supply and Execution of Creek Crossing
- **MAMZAR-3** - SEWA 33/11kV GIS Typical SEWA Substation.
- **33KV CABLE NETWORKING** - *Client:* SEWA
 - » A total of 26km for Various Substations From 132/33kV SEWA TRANSCO Substations.
- **AUTO ZONE - SHARJAH** - *Client:* Directorate of Public Works, Sharjah
Design, supply, installation, testing and commissioning of:
 - » 11kV Networking » LV Networking
 - » 11kV Substations » Street Lightings

Highlights of Our Major Ongoing Projects:

- **LAYYAH POWER HOUSE** - *Client:* SEWA
 - » Dismantling, Installing, Testing and Commissioning of 35MVA Power Transformer
 - » 33kV Cable Laying
 - » Bus Duct Inspection and Maintenance
- **NASMA RESIDENCES** - *Client:* Arada
 - » 11kV and LV Networking
 - » 11kV Substations
- **AUS RESEARCH TECHNOLOGY & INNOVATION PARK**
Client: AUS Enterprises
 - » 11kV and LV Networking
 - » 11kV Substations
- **EXPO 2020** - *Client:* RTA , Dubai
 - » Road Crossing for all Services
- **BULGARI RESORT & RESIDENCES, DUBAI**
 - » Entire luxury design and fit outs for 2 Deluxe apartments
